Walkden, cadets Freddie and
Ted

Jet ski, Matthew Bracegirdle,
cadets Harrison and Christian

Jet ski, Neil Robey

Jet ski, Darren & Zena Cowan

Jet ski, Kieran Shearer

Jet ski, Daniel Walcott & Jade
McCormick, cadets Danika and
Dantaya

Jet ski, Nathan Parker-Lisberg,
cadet Lucas

Jet ski, Colin & Jackie Murphy,
cadets Evie and Leo

Jet ski, Phillip Heys

64th Annual General Meeting

Covid is making life increasingly difficult for everyone. Though the committee is obliged to hold an A.G.M, Government lockdowns presently dictate otherwise.

The decision has been taken to defer this year's meeting until brighter times. Meantime an Annual Report will be compiled for issue.

Thank You All

The anniversary of re-election to Office fast approaches. My priorities and focus have changed considerably over the last 12 months and after much deliberation I feel it's time for me to draw a line under my term in Office.

Vice Commodore Paul Collins pictured below will,

with the support of the committee, take the club forward from this point, leaving the formality of the annual election of Officers and committee members to a future date.

Thank you all for the opportunity to have served the club one more and for your support and encouragement over the years.

Alan

The Tractor Garage

Taking shape with the new addition of a powered roller shutter door. Next step a concrete floor and external wash down area.

Looking for a Local Member to Volunteer

To refuel the tractors as and when required.

Bosun, Pete Dowden, ably assisted by co-committee member John Hargreaves undertake the ongoing mechanical maintenance, but as neither live on the Fylde it would assist greatly if a member who is more local would volunteer to aid in our continued smooth running.

A willing volunteer would not have to commit to either Office or a Committee position.

If happy to help, please Send Paul a text to **07792 384691**

Havhingsten Fibre Optic Cable

Though slightly delayed by the weather towards the end of the week, the underwater cable spanning the Atlantic Ocean made its way from New York to Starr Gate on Sunday to provide the whole UK with super-fast new broadband. The cable which is part of the North Atlantic Loop will provide a third of the world's internet connection

In addition to the contractors actually undertaking the works, there was a sizable film crew present and many business and civic leaders.
